

Ideation Phase

Define the Problem Statements

Date	31 January 2025
Team ID	SWTID-2026-9223
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	2 Marks

Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	Describe customer with 3-4 key characteristics - who are they?	Describe the customer and their attributes here
I'm trying to	List their outcome or "job" the care about - what are they trying to achieve?	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way - what bothers them most?	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists - what needs to be solved?	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view - how does it impact them emotionally?	Describe the emotions the result from experiencing the problems or barriers

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	a member of the IT procurement team	order standard laptops and have them configured promptly when they arrive	configuration tasks are not created and assigned to the hardware team automatically	the process depends on manual hand-offs that are prone to oversight and delay	frustrated and overburdened
PS-2	an employee who has requested a standard laptop	receive a configured, ready-to-use laptop soon after my request is approved	I have to wait and chase for updates because the laptop sits unconfigured	no automated task is generated for the hardware team once the request is approved	frustrated and unproductive
