

Project Design Phase

Problem – Solution Fit Template

Date	02 October 2026
Team ID	SWTID-2026-9223
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	2 Marks

Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- ☐ Solve complex problems in a way that fits the state of your customers.
- ☐ Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- ☐ Sharpen your communication and marketing strategy with the right triggers and messaging.
- ☐ Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- ☐ **Understand the existing situation in order to improve it for your target group.**

Template:

Define CS, fit into CC 1. CUSTOMER SEGMENT(S) CS Who is your customer? Target users / stakeholders • Employees / end users requesting a standard laptop • IT procurement team handling requests • Hardware team responsible for laptop configuration	Focus on J&P, tap into BE, understand RC 6. CUSTOMER CONSTRAINTS CC What constraints prevent your customers from taking action or limit their choices Constraints • Request must follow the approval process • Only approved requests should create a task • Task must reach the correct Hardware group • Required task details must be consistent • Automation must operate within ServiceNow	Explore AS, differentiate 5. AVAILABLE SOLUTIONS AS Which solutions are available to the customers when they face the problem Existing / available solutions • ServiceNow Service Catalog for laptop requests • Approval process for the requested item • Manual Catalog Task creation and assignment • Flow Designer available for workflow automation
Identify strong TR & EM 2. JOBS-TO-BE-DONE / PROBLEMS J&P Which jobs-to-be-done (or problems) do you address for your customers? Jobs-to-be-done / Problems • Place a Standard Laptop request • Obtain the required approval • Create a configuration task after approval • Assign the task to the Hardware team • Avoid delays, missed tasks and manual overhead	Focus on J&P, tap into BE, understand RC 9. PROBLEM ROOT CAUSE RC What is the real reason that this problem exists? Root Cause The approved request is not automatically connected to the configuration-task creation and assignment step. Manual intervention can therefore cause oversight, delay, or incorrect task allocation.	Extend online & offline CH of BE 7. BEHAVIOUR BE What does your customer do to address the problem and get the job done? Customer behaviour 1. User opens the Service Catalog. 2. User selects Standard Laptop and submits the request. 3. Request goes through approval. 4. IT / Hardware team waits for or creates the task. 5. Hardware team configures the laptop.
Identify strong TR & EM 3. TRIGGERS TR What triggers customers to act? I.e. seeing their neighbour installing Triggers • Employee needs a standard laptop • Standard Laptop order is submitted • Requested item receives approval EMOTIONS: BEFORE / AFTER BEFORE: waiting, uncertainty, frustration caused by manual task creation or delayed assignment. AFTER: faster task creation, clear ownership.	Identify strong TR & EM 10. YOUR SOLUTION SL If you are working on an existing business, write down your current solution first. Solution Automate the approved Standard Laptop workflow using ServiceNow Flow Designer. Trigger: Service Catalog request / approval Action: Create Catalog Task using the Requested Item Short description: Laptop need to Configured Approval: Approved Assignment Group: Hardware FIT: The solution directly removes the manual step that causes configuration task delays and missed assignment	Extend online & offline CH of BE 8. CHANNELS of BEHAVIOUR CH Channels of behaviour ONLINE • ServiceNow Service Catalog • Request / Requested Item record • Approval record OFFLINE • Hardware team receives the assigned task • Laptop configuration is performed after task creation
